

InTENSity *powered by Hedstrom Fitness*

I. Introduction

TEN exercises, TEN reps, TEN rounds! This ferocious ladder approach increases in duration and intensity with each round -- and you never have to answer the question "how many?" This concept can be used in a one-on-one or group format by coaching the workout in a unison format or moving clients from station to station for interaction and team spirit. You'll learn a multitude of "TEN" drills to plug into the ladder template -- with dynamic coaching techniques tying it all together.
