

# THE WARRIOR FIT GAMES™

## Free-style Circuit (Obstacle Course) Tactical Fitness Session with SGT Ken®

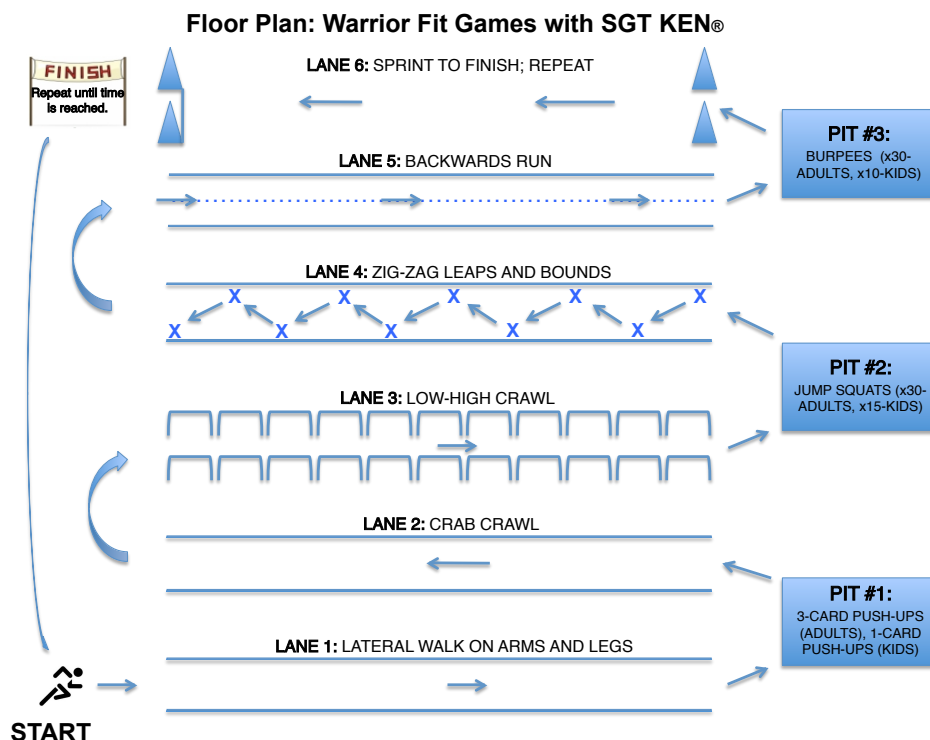

### Program Theory

1. Program format: *Free-style Circuit Fitness Training* in three phases: Warm-up, Free Circuit Fitness Course (each round is approximately 6-8 minutes), and Cool-down.
2. Program focus: Free circuit fitness programs allow you perform exercises in multiple stations for a specified amount of repetitions each, or to successfully accomplish a series of obstacles (aka “fitness challenge” or “obstacle course”) with the intent to achieve the best time possible for the entire event.
3. Exercise-science elements: PROGRESSION, VARIETY and PRECISION. *Progression* is the learning process of mastering the skill. Athletes are directed to perform movements with gradual progression and increase limits, when ready. *Variety* includes movements during the progression process to improve performance. *Precision* is the process of achieving precise targets of proper performance.
